WORD ENRICHMENT

Words of peace

The word pacific comes from the Latin word pax, meaning "peace." Other English words come from this root, including peace itself. A pact, or "agreement," also comes from pax, as does appease, which means to calm, usually by giving into demands.

The name of one of the world's great oceans comes from pax. In 1513, Spanish explorer Vasco Nunez de Balboa crossed the Isthmus of Panama and saw an ocean. So peaceful did it appear, he named it the Pacific.

Offset can also be used as a noun, as in "The refund was an offset for her overpayment."
